4. ● The Warsaw-Oxford Rules	
4a The Warsaw-Oxford Rules Overview	388
4b The Warsaw-Oxford Rules (1932)	390
5. ● Common Q&As on Commercial Terms	
5Q01: Is EXW different to ‘ex-works’; when would I use the Incoterm EXW?	398
5Q02: We export FCA. In our L/C we wanted to use the forwarder’s receipt to trigger payment. The issuing bank wants to use the forwarder’s house airwaybill? Which is correct?	400

5Q03: Who is responsible for securing, crating, or packing cargo into containers, or for securing cargo onto trucks, when the commercial term is 'FCA supplier's premises'?	402
5Q04: When may revenue be recognized per the Incoterm used in the sales agreement?	403
5Q05: How should a seafreight seller structure an FOB model to minimise risk?	405
5Q06: We want to deliver as close as possible to our customer's premises, but we don't want the risk of import clearance delays. What term should we use?	410
5Q07: In an FCA sale, must the seller act as the shipper?	411
5Q08: We buy CIF partly because the supplier can obtain insurance cover at a lower rate than we do. Is it that simple? What else should we consider?	412
5Q09: Is 'CIF Johannesburg, South Africa' a valid import commercial term? May I export on 'CIF Manchester, UK' terms? How do I sell to an inland address?	414
5Q10: What is the difference between using the Incoterm CPT as opposed to DAP: what are the advantages and disadvantages - and is there a price difference?	415
5Q11: Who pays the empty turn-in on containers under DAP?	419
5Q12: We exported not knowing that a pre-shipment inspection was required. Was this something the buyer should have told us, or should we have known? Should the clearing or freight agent have arranged this or told us in advance? Who now pays the costs: we sold CPT?	420
5Q13: When would I not use Incoterms?	422
5Q14: Which Incoterms are best suited to which payment terms, and/or vice versa?	424
5Q15: Which Incoterms work best with an L/C?	428
5Q16: Should we be using Incoterms for our domestic sales too? FCA appears to fit many of our sales	430
5Q17: I sell CPT. The freight costs have increased - may I increase the prices to the buyer?	432
5Q18: As a middleman in the transaction, is there a particular Incoterms rule that works best with merchanting models?	433
5Q19: I imported several small shipments, FOB from the USA. The agent is invoicing me for local collection and inland charges on some of these. Shouldn't the seller always pay these costs?	435
5Q20: I buy parts on a CFR or CIF basis. However, a new supplier is quoting C&FFO. What is different, what must I look out for?	437
5Q21: We sell FOB, but some clients want to change and would rather buy CFR or CIF. Is this to our advantage, or not??	438
